AUTHORIZED BIOGRAPHY

CHRISTINE HORNER

AUTHOR, PHILOSOPHER, HUMANITARIAN

Christine's simple beginnings in farmland of the rural Midwest gave her a profound appreciation and connection with Nature. Blessed to live in an electronic-free environment, she and her siblings were literally kicked out the door in the summer to find their own entertainment. With hours to hang out in the fields and the woods, contemplating life and each other, Christine developed a passionate love of people and life itself at a very young age. Intense introspection developed her gifts of compassion, understanding of the human condition, and connectivity to Spirit itself.

In 2009, Christine's 11-year-old daughter, Victoria, was diagnosed with a brain tumor. As her daughter braved cancer treatment, Christine experienced her own "dark night of the soul" lasting several years which led her to question everything she thought she understood about the world around her, including God. While living in the hospital weeks at a time, she launched What Would Love Do Int'l, authoring the Yes, Love Can! Initiative and Global Humanity Bill of Rights. A renewed sense of clarity and purpose emerged as she dedicated her life to the advancement of human consciousness and awakening the miraculous within you.

Christine's latest book, *Awakening Leadership: Embracing Mindfulness, Your Life's Purpose and the Leader You Were Born to Be*, shows us that we each have an essential role to play in leading humanity toward a new era of true equality and prosperity. In the New Leadership Blueprint, it is through mindfulness that we reconnect with our life's purpose, and finally begin to thrive.

A 2014 Dayton Literary Peace Prize nominated author, Christine Horner is a humanitarian and the co-founder of the What Would Love Do Foundation. Christine has been featured on many programs and is an internationally syndicated writer. When not writing, cooking, or enjoying yoga and tennis, Christine appreciates family, travel, and spending time in Nature.
